## Description

Lumieo® II is a premium white acrylic sheet which provides both high transmission and excellent lamp hiding capabilities.

As compared to Lumieo® S84, Lumieo II has 5% better light transmittance while maintaining the same lamp hiding.

The diffusion comes from a combination of a very fine surface texture and special diffusing additives.

Custom sizes are available.

## Application

Lumieo II is an excellent choice for those applications where lamp hiding and transmission efficiency are required

## Ordering Information

Please call 1.800.880.5483 for price and delivery. Specify dimensions when placing an order.

## Notice

Diffuser Specialist assumes no responsibility for suitability of luminaires and applications. The use of acrylic lenses near and above 80°C temperatures with high UV output light sources will cause degradation of the material. Tolerance for Light Transmission is ±3%. Subject to changes without notice.
