

Diffuser Specialist

314 Series Wraparound Low-profile, narrow 4-light

General Description

A low-profile, narrow four-light fluorescent wraparound. All parts snap together for easy installation and maintenance. Housing accepts lift-and-shift lenses and frames. New low profile ballast cover prevents center shadows.

Advanced microprism clear acrylic lens design provides excellent lamp obscuration. Linear sides provide excellent light distribution and put more light in task areas. Manufactured from durable DR/Acrylic polymer blend.

Diffuser Specialists Indestruct-A-Puff™ lighting diffusers are manufactured from a high strength optical plastic material. Impact tests show that these outperform impact modified acrylic many times over with nearly identical optical properties-high transmission and smooth uniform color.

Features and Benefits

- Side flanges reinforce for maximum rigidity
- Accepts lift-and-shift prismatic lenses and reverse form puffs
- Smooth hemmed sides for safe handling
- Same ends for wrap and puff
- One standard ballast cover for all wraps 2- and 4- foot

Application

For use in industrial and garage applications as well as kitchens, offices and storage rooms.

Note

For large emergency battery pack applications, use ballast cover 390-20C-ALP for 2-foot and 390-40C-ALP for 4-foot.

Ordering Information

Please call 1.800.880.5483 for price and delivery.

314 Series

13" Wraparound
Low-profile, narrow 4-light

Specifications

Housing

Die-formed heavy-gauge steel

Ends

Snap on tightly to the housing with hole end available for flush ceiling frame mounting

Ballast Cover

Snaps into housing to cover ballast and wires

Finish

White polyester polymer with minimum of 82% reflectivity

Mounting

Units may be surface or stem mounted, individually or in continuous rows

Prismatic Lens

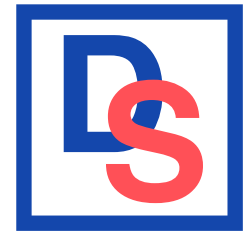

Microprism clear acrylic

Puff Lenses

High strength optical plastic; matte white acrylic with S82 texture
